

goal digger

ENTREPRENEURSHIP: CREATING AND ACHIEVING YOUR GOALS

success *noun* /suc·cess / \sek-ses\ the fact of getting or achieving wealth, respect or fame, or a desired outcome.

Many people work for most of their lives to become successful.

To us, a goal digger is someone who knows what she wants and is willing to put in the time and work to achieve success, *no matter what*.

Please join us as we introduce three of our favorite “goal diggers” as they share their stories of designing, launching and running their business.

We will also be presenting on legal issues that many startups face, including:

- Entity formation
- Employment
- Compensation
